

NO FOOT TOO SMALL

ANGELS IN THE OUTFIELD
Impact Report

Angels in the Outfield 2024

This year's Angels in the Outfield event was a beautiful reminder that even in loss, community and connection grows. A home run for the No Foot Too Small mission, families came together to celebrate their angels and make an impact far beyond the ballpark—increasing participation and ultimately awareness to help us reach more families navigating pregnancy and infant loss.

138 Angels Celebrated

What a beautiful day celebrating our angels! Amaya, Poppy, and Gumdrops have a lot of love here on Earth. Thank you to everyone who came out to Angels in the Outfield - It means so much to feel the love and support our angels have. I'm a proud mama of my angels and the way they have brought people around us.

It was also 2 days before Poppy would've turned 1 year old. The "should've been" milestones are hard...but having family, friends, and this community remember our angels with us, make the "suck" a little less awful. Thank you all

My Ultimate. Favorite. Day.

The sun showed up this year—along with the BEST friends and family. I am overwhelmed with joy, getting to be Charlotte and Colby's mom today but a day doesn't go by that my heart breaks not getting to celebrate these moments with them earthside.

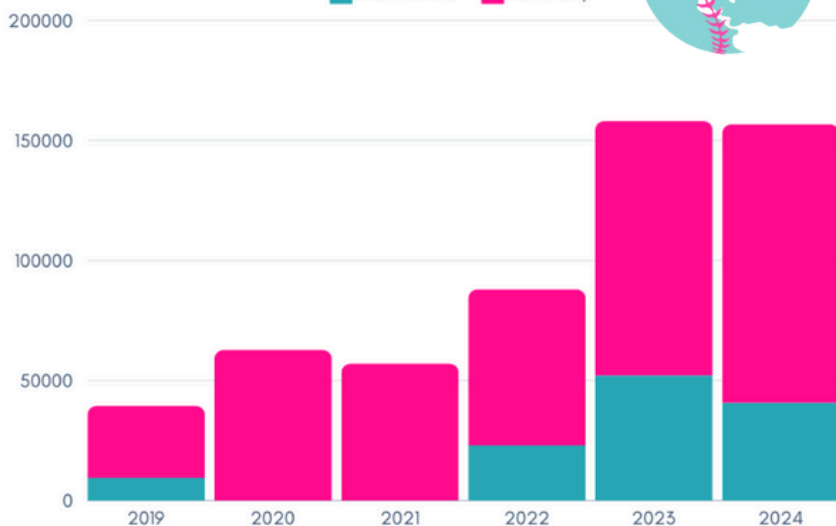

I am so thankful for No Foot Too Small for the opportunity, Principal Park for hosting us, and extra thankful for the small business vendors who made my boys next-level ecstatic with the most intricate face painting and impressive balloon props!
